V. <u>CERTIFICATION</u>:

I certify that (check items completed):

	Remedial measures were performed at each outlet where an elevated level of lead was found.		
	For outlets that were not permanently disconnected or removed from service as means of remediation: After remediation, a follow-up first-draw sample (flushed sample for any outlet for which automated flushing was the means of remediation) was collected from each outlet where an elevated level of lead was found.		
	Outlets were only put back into service if no elevated levels of lead were found in the follow-up first-draw samples (flushed samples if automated flushing was the means of remediation).
